CROYDE BIRTHING BEANBAG

Discover the Croyde Birthing Beanbag®, a barrel beanbag for hugging and resting during labour & delivery.

The Croyde Birthing Beanbag helps mothers find comfortable positions during labour and delivery.

Using the beanbag helps to support upright and active births as well as being a useful positioning aid on a birthing bed.

Unlike other beanbags, the Croyde Birthing Beanbag doesn't collapse and retains its shape.

SUPPORTIVE POSITIONING

The Croyde Birthing Beanbag can be shaped and moulded to suit each individual's needs. The immersive beads deliver exceptional comfort.

The barrel design helps it to keep its cylindrical form and not collapse. This ensures women remain upright and feel supported during labour.

BIRTHING BED COMPATIBILITY

You can use the beanbag with a delivery bed to support advanced and active positioning, even if an epidural is required.

The inner beads also enhance comfort and can provide support to help make long labours more manageable.

CLEANING & INFECTION CONTROL

The Croyde Birthing Beanbag is perfect for hospitals. It is made with high quality, medical-grade fabric that is durable, easy to clean & infection-control compliant.

You can wipe the beanbag between uses with hospital wipes and chlorine-based solutions. The fabric is strong and resists fluid ingress. A double waterfall protection flap covers the zip and PU tape seals and protects all seams.

ACTIVE BIRTH PRODUCTS

The Croyde Floor Mat perfectly complements other products in the Croyde Active Birth collection, helping midwives to maximise birth position possibilities.

The Croyde Birthing Beanbag, Croyde Positioning Pillow and Croyde Birthing Couch can be used alongside the Croyde Floor Mat to create a range of positioning options.
