

CROYDE MIMMAMÀ® INFANT FEEDING CHAIR

The Croyde MimmaMà® infant feeding chair is designed to support mothers and babies in all feeding positions. It delivers a level of bespoke comfort that other chairs can not achieve

The MimmaMà® offers the mother excellent support for arms, back and shoulders whilst also helping to support the newborn.

It is ideal for use in clinics, maternity & postnatal environments and public spaces looking to promote infant feeding.

The unique design helps to create moments for mothers to engage and bond with their babies.

SUPPORTED FEEDING

The MimmaMà® easily facilitates tandem twin feeding as well as alternate feeding to help free the milk ducts & avoid mastitis.

POSITIONING

The unique cut out design promotes positioning options for every new mother including cradle, cross-cradle, football and tandem feeding.

BONDING

The comfortable positioning and bespoke support helps the mother to focus on creating bonding moments with their baby.

ACCESSORY OPTIONS

The infant feeding pillow aids with positioning while the foot rest helps the mother maintain correct posture in the chair.

UNIQUE SHAPE

The unique shape and ergonomic modelling of the seat reduces pressure on the perineum and helps to prevent postural pains.

It also helps to unload body weight from the legs for a significantly more comfortable feeding experience.

The high backrest supports the mother's lower back and shoulders whilst the wide armrests and cut outs support the mother's arm and elbow in any feeding position.
