CROYDE MEDICAL

Maternity Equipment Specialists

CROYDE HEIGHT ADJUSTABLE OVERBED COT

The Croyde Height Adjustable Overbed Cot glides under the bed, putting the baby in front of Mum. It allows constant and easy access, facilitating more frequent skin-to-skin contact, and promotes maternal bonding.

The mother can place the baby back in the cot without leaving the bed, reducing the risk of her falling asleep with the baby because the cot is too far away.

The Overbed Cot can be raised and lowered in one simple smooth movement to make access to the baby easier for women who have undergone caesarean sections or complicated births.

The open design makes it easy to clean, and a wide range of colours are available to suit any room theme.

MPC code: BM/04/GS-KR-01ST

CROYDE HEIGHT ADJUSTABLE COT + STORAGE

Chosen by birth centres, postnatal areas, NICUs, SCBUs and HDUs, the Croyde Height Adjustable Cot + Storage offers the convenience of customisable and practical under-cot storage.

The large cupboard is accessible from both sides of the cot with double soft-close doors, ensuring it is suitable for small rooms or tight spaces.

Height adjustment enables the cot to be raised or lowered to the desired height to reduce bending or stooping and ease musculoskeletal strain on the carer's back and shoulders.

You can specify an optional foldable shelf and/or cylinder holder, and a wide range of colours are available to suit any room theme.

MPC code: BM/05/GS

HEIGHT ADJUSTABLE BABY ASSESSMENT TABLE

The Croyde Height Adjustable Baby Assessment Table allows clinicians to position the table at the perfect height for neonatal examinations and baby changing.

Depressing the foot pedal enables staff or parents to adjust the table to the ideal position and protect them from physical stress and strain. Baby examinations become instantly more comfortable and stress-free.

The high-height position makes cleaning easier, while the low-height position makes the table accessible for all heights of carers, including wheelchair users. It is lightweight and easy to move between bed spaces, with brakes to secure its location.

Choose from a storage cupboard with shelving or a drawer unit. Both units have soft-close doors and ample space for all items.

MPC code: SPTM-02-D-HA

MPC code: Aquatherm

AQUATHERM WARMING MATTRESS/HOT COT

The Aquatherm warming mattress provides heat and warmth to regulate a neonatal patient's temperature. It uses a fire retardant foam/rubber and 'Aquagel' technology to deliver a non-water based warming system.

It incorporates a heating element for safe, evenly spread heat and two highly-sensitive sensors for fail-safe temperature control. The control unit has user-friendly settings to regulate the heat output of the mattress and also contains an alarm system for enhanced patient safety.

When used with Croyde Height Adjustable Cots, the control unit mounts on the inside of the cot, allowing unrestricted access for the attending carer. The swivel bracket provides immediate access to the control unit and discreetly locates it inside the frame to avoid accidental collisions.

The holes in the bottom of the crib allow the cable to conveniently connect to the mattress without being routed over the top, avoiding kinking of the cable and potential damage. The shape also fits perfectly within the crib to minimise gaps. Aquagel technology ensures that residual heat is retained for longer. When disconnected for transport, Aquagel technology ensures that residual heat is retained for longer.

TIPPER TUB

This innovative mobile baby bath enhances caregiver ergonomics and eliminates the need to manually lift and carry heavy bowls of water.

The integrated lifting column allows the tub to be raised to the height of the sink or drain, where it is then tilted without any hand contact to empty without strain. The bowl is ergonomically shaped, heat-insulated to retain the warmth of the water and one-piece to make cleaning exceptionally easy.

Available in a choice of colours.

MPC code: TT-24000

M-300 BABY SCALE

Class III Medically Approved.

This scale has a graduation of 15kg and is accurate to 2g up to 6kg and 5g thereafter.

It is lightweight with tare and hold functions and runs on 2 x AA batteries to deliver over 600 hours of continuous use. An adaptor is also available if required.

MPC code: M300

M-400 BABY SCALE

Class III Medically Approved.

This scale has a graduation of 20kg and is accurate to 5g up to 10kg and 10g thereafter. It is also available with an integrated digital height measure – M-400-80D.

This scale has a removable baby tray which enables toddlers to be weighed if required and also includes the tare and hold functions.

The 6 x AA batteries provide up to 6000 weigh ins with a mains power adaptor available if preferred.

MPC code: M400

CROYDE MIMMAMÀ INFANT FEEDING CHAIR

The Croyde MimmaMà® infant feeding chair offers optimal support for shoulders, arms, back and the lumbar area. Its supportive backrest and high, wide, rounded armrests support both mother and child in the most ergonomically friendly positions. The perineal cut-out also helps to offload pressure and reduce the pain of childbirth wounds.

The MimmaMà® chair also supports the simultaneous feeding of twins and avoids postural pain due to incorrect positions. The carefully considered design allows the mother to fully enjoy the relationship with her child during feeding.

MPC code: 365900

CROYDE RECLINER CHAIR

The Croyde Recliner Chair is a multi-functional bedside chair that is available in a wide range of colours. It can be used upright as a regular chair with high backrest support, or be reclined to support feeding, resting or sleeping.

It supports a number of feeding positions and helps to promote skin-to-skin contact with an enhanced level of comfort. The optional feeding pillow and footstool can help to optimise the bonding experience.

MPC code: ASTCMR

The padded foot section of the chair gently raises the level of the feet closer to the heart, improving lymphatic drainage, and reducing swelling in the feet, ankles and legs after birth.

The slimline design means that it is an excellent choice for wards where bed spaces need to be kept within a specific footprint. It has a similar width to a regular beside chair and doesn't take up valuable space. It is also an excellent option to accommodate partners or family members as they stay overnight in hospital. The large wheels also make the chair easy to move around the ward during cleaning or when configuring new spaces.

MPC code: STARGAZER

CROYDE SLEEPER CHAIR

Perfect for use in hospital settings where overnight stays for partners/dependants are required. The Croyde Sleeper Chair is easily converted from chair to comfortable, full-length bed in just a few seconds. It also features a chaise longue position. Integrated wheels make moving simple and lightweight and it is designed to be wiped-down between uses in the hospital setting.

Available in a range of colours.

“The sleeper chairs are both spacious and comfortable, whilst not taking up too much room in our side rooms. They have helped us to ensure that our patient’s relatives have a better experience during overnight stays, which are often in very difficult circumstances”

Inpatient Matron at Basildon & Thurrock University Hospitals NHS Foundation Trust

CROYDE WALL BED

The Croyde Wall Bed is available as a single or double bed in a wide range of colours/finishes. It can be supplied as a stand-alone Wall Bed, or with alongside cabinetry for additional storage options. A full installation service is available or self-assembly instructions, if preferred.

Alongside cabinetry can be tailor-made to accommodate gas systems, nurse call systems and other fixed wall items. Integrated LED lighting and options to incorporate power sockets are also available. Designs can be configured to suit specific wall sizes with bespoke solutions providing wall-to-wall and/or floor-to-ceiling options.

All Croyde Wall Beds are supplied with exceptionally comfortable, hospital specification mattresses that can be cleaned with approved disinfectant wipes and solutions. Mattresses are waterproof, breathable and zipped, with protective waterfall flaps. They are also Crib 5 fire retardant.

MPC code: WALLBED

CROYDE FOLD-AWAY BED

The Croyde Fold Away Bed is a single bed that can be set-up in seconds to enable partners or family members to safely co-sleep next to loved ones in hospital. It is easily wheeled around the ward on castors, and with a folded depth of just 38cm it is easily stored when not in use.

With a solid base and no slats or mesh bed deck, cleaning is quick, simple and infection-control compliant. It comes supplied with a hospital-specification mattress with welded seams and is waterproof, breathable, & zipped with a waterfall flap.

MPC code: MAX-80

CROYDE LED SKY CEILINGS

Bringing the outside – inside. LED Sky Ceilings help to create a more expansive, relaxed environment. Designed to help reduce anxiety and promote feelings of calmness and warmth, they can be installed into any tiled ceiling.

The ceilings become a positive focal point in any room and are a welcome distraction for anxious service users. Staff members also report positive comments as the realistic images bring a new visual dynamic to the ward.

They are available with a wide range of shapes, sizes and images.
