

CROYDE MATERNITY RECLINER CHAIR

The Croyde Maternity Recliner Chair provides a multi-use bedside package, perfect for maternity wards.

The Croyde Maternity Recliner Chair is a multi-purpose chair that helps to facilitate ideal infant feeding positions for mother and baby.

With a single, smooth action, the Croyde Maternity Recliner Chair reclines to a lying position, allowing partner stays and helps position them perfectly for skin to skin contact when bonding with the baby.

The modern design and choice of colours complement any interior theme.

For ease of movement within and between rooms, the Croyde Maternity Recliner Chair can be wheeled around the space and then be securely locked into place using the brakes.

INFANT FEEDING BENEFITS

The reclining backrest allows babies to feed in the semi-recumbent chest-to-chest position that is most comfortable for the mother. Padded armrests give comfortable arm placement and support various feeding positions.

FOOTSTOOL & INFANT FEEDING PILLOW

The angled footrest provides appropriate support and stability when the chair is upright. The infant feeding pillow supports optimum feeding positions, reducing the need for women to bring additional items into the hospital, increasing the available space.

EASE OF USE

The easy to extend design means this chair can be easily reclined into a comfortable resting position.
